

Accessories - Construction Cages

How To Order

Use the option code E in the winch model code to order a winch mounted in a galvanized construction cage. To order and ship separately put "CC" in front of the winch model code. (Do not confuse the E option code with the "-E" code which is placed at the very end of the model for the CE compliance package).

Winch Model ⁽¹⁾	Part Number (Construction Cage Only)	Model driver code when ordered with winch
BU7A	CC-BU7A	E
